

REMARKS

The foregoing Amendment amends Claims 1, 73 and 99.

Applicants have received an Office Action dated December 29, 2004, which contains a requirement to restrict the present Application. In response to the restriction requirement, Applicants provisionally elect to prosecute the Group I claims, namely Claims 1, 69 to 75, 99 and 100. The election is, however, made with traverse.

More particularly, traversal is on the ground that there would not be undue burden in examining the groups of claims in a single application. In particular, MPEP § 803 makes clear that in order to require restriction between independent or distinct inventions, reasons for insisting upon a restriction requirement, such as serious burden, must also be shown. In the present instance, it is not believed that there would be serious burden in examining the groups of claims in a single application, since they are not so different as would place a burden on the Examiner that is significantly beyond that of the normal burdens of examination. Accordingly, reconsideration and withdrawal of the Restriction Requirement are respectfully requested.
